

Executive Protection Professional **EP-PRO**

Talon Group, a division of Health and Safety Sciences, LLC, is pleased to provide private security agencies, hospital security departments, law enforcement agencies, military groups and entertainment planners with a 40-hour comprehensive Executive Protection Professional (**EP-PRO**) training program.

This course covers the full range of the basic principles of executive protection. The training schedule contains both lecture and hands-on exercises. The **EP-PRO** program culminates in a field exercise that places the agents newly learned skills into practice. The **EP-PRO** program is conducted over five consecutive days.

All Talon Group cadre instructors are certified as executive protection specialist and bring real-world, high-stress experience to the training room. Talon's instructors come from high-risk contractor, law enforcement, emergency response, and military backgrounds.
